01 June 2010

To Whom It May Concern:

I would strongly recommend the architectural services of Michael Hackley Architects. During the last six (6) years, he and his firm have presented their architectural designs for our memorial. As the needs of the memorial changed, so did his perspectives in the design. We are hoping that in the next several years, we will be breaking ground. Michael and his staff have been professional and their work has been impeccable.

Sincerely,

David H. Muhl, Founder and Sergeant

To The Representative of #1:

The Maryland Fallen Police and Correctional Officers Memorial wishes to extended its heart felt sympathies to the members of the **#1** for the loss of **#2**.

My name is David Muhl and I am a sergeant with the Crofton Police Department in Crofton, Maryland.

I established an Internet website honoring all of our fallen law enforcement officers within the state of Maryland. FOP Lodge #70 (Anne Arundel County Police), of which I am a member, has backed this project completely.

I requested that Lodge #70 consider purchasing this print to be given to the family of every fallen officer, and at a Board Meeting, the vote was unanimous in acceptance. PolicePrints.com, and Tom Ziegler, who created the print, have also been gracious to assist us in this endeavor.

We would appreciate it if someone from your department would hand carry the print and deliver it to:

The Family of #2 #1

This is a small way that we can say "thank you" for the great job that **#2** did for your department. His loss and memory will never be forgotten.

The Maryland Fallen Police and Correctional Officers Memorial, Incorporated is also in the process of requesting land in Annapolis from the State of Maryland, to begin the construction of a state wide Memorial, honoring each and every police and correctional officer who have given their lives protecting the citizens in the jurisdictions where they served.

Fraternally,

David H. Muhl
